Date	Bug/Error/Issue	Description	Cause of Error	Solution	Status
2024-09-27	Images not displaying	Images (plates and prizes) were not showing up in the game window.	The image files were not in the correct format or location.	Converted all images to PNG format and ensured the file names matched.	Resolved
2024-09-27	Path errors for image files	File paths for the images were incorrect, causing the images to not load properly.	Incorrect file paths in the code for the PNG files.	Updated the file paths to correctly point to the location of the PNG images.	Resolved
2024-09-27	Incorrect random prize selection	Random selection logic was not working, leading to the same prize appearing every time.	Random number generation was not implemented correctly, leading to predictable results.	Fixed the random prize selection logic to ensure it properly selects between two prizes.	Resolved
